

**Quotes  
Cal Poly  
vs. San José State  
September 2, 2017**

---

**Head Coach Tim Walsh**

**Opening Statement**

"If we keep playing defense the way we are, and we keep playing special teams the way we are, sooner or later our offense will catch up. When they do, we'll be a pretty good football team. But right now, I don't think we're playing well on offense, but really, more than anything, the turnovers cost us games."

"We just have to take care of the football. It's unfortunate we're killing ourselves. We gave away touchdowns. Our defense, I thought, played their tails off. I thought they played extremely hard."

"You have got to stay together, to play together and to learn to win together. It takes everybody to do it. And right now we're not playing very well or efficiently on offense."
