

**Quotes
Nevada
vs. San José State
September 27, 2014**

Head Coach Brian Polian

"It's big for our football team to open up Mountain West Conference play with a win and to do it on the road and to do it in a game where we had to show some toughness to find a way to win. I'm proud of them. And frankly I would not have made an excuse had we lost."

"It was ugly but we found a way to win and to win on the road in a league game is a big deal. There's obviously things we need to get improved but we talked to our team all night and sometimes one side of the ball is going to have to pick up the other and I felt clearly tonight the defense picked up the offense and that's good for our team."

"I expected them (San Jose State) to be ready to play and I knew Greg Robinson would have a good plan. I thought their QB played better than I actually anticipated and thought he did a nice job. They have some difference makers and fortunately for us we found a way (to win)."
