

# POSTGAME QUOTES

---

**Sept. 20, 2014**

**TCF Bank Stadium**

**San Jose State at Minnesota**

**Jerry Kill, Minnesota Head Coach**

## **On the game...**

“We got a big ‘W’ and I thought our kids played well together as a team. I thought they defensively played well and they also did a good job in the kicking game. Offensively, we played well out front coming off of what happened a week ago. Our kids were focused and came out and played hard and whenever you can run a football like that, it’s a good day. Coming off of the delay I thought our kids handled it really well. Sometimes that doesn’t happen but our strength coaches made sure we had everything ready to go back out and the kids did a good job.”

## **On the rain delay...**

“In 31 years I think this is the second time I’ve been involved in one. You come in (the locker room) and start visiting about how you can adjust some things and I go in and talk to the players. You get them up and get them moving around about every five minutes, and then when you get closer we get them talking to each other. We try to create that enthusiasm. I thought our kids came out with great enthusiasm and closed the game out.”

## **On quarterbacks Mitch Leidner and Chris Streveler...**

“Leidner wasn’t full speed on Thursday so we came in on Friday morning and you can’t take chances (playing Leidner) and he understood that. Hopefully this will get him healed up. Chris had a nice game. You take the one pick out of it, that was our fault, and otherwise he did well. We didn’t have to throw it because we were running so well but when he did throw it, except for the one he was on target, we just dropped the ball.”
