Head Coach Dave Christensen

Opening Statement

Tonight was frustrating because we played better defensively early on but didn't keep it up throughout the game. That one turnover was costly offensively because it put them on a short field. We didn't get enough stops defensively, and if you don't do that, you lose games.

Defensively we must to get better. We'll evaluate where we are at and find ways to correct things. But we made mistakes today on both sides of the ball.

I thought the kids came out and competed hard. They played their tails off, but in the end, we need to find ways to win football games.

On running back Shaun Wick

I am so proud of Shaun. It's a big game for him to come back to California, and he was outstanding. He is a tremendous runner, and I'm excited to see him play four more times this year.

On wide receiver Robert Herron

Rob was in a bit of a slump and he had a chance to come out of it this week. It was really nice to see that too.

Running back Shaun Wick

On having a career day - I gave it my all and was trying to do anything I could to get us a win.

On mounting losses - We just have to bounce back. Whenever adversity comes our way, we just have to get together, go back to work and practice hard. We worked so hard tonight, but there was no benefit at the end.
