Wyoming
vs. San José State
November 25, 2017**

Head Coach Craig Bohl

Opening Statement

“Credit San José State with their big win on Senior Day. We’re really disappointed. We’ll take a look at the tape as we get ready for our bowl game. But certainly there are things we can improve on, and I’m going to be a little bit measured about making broad-brushed statements until I have a chance to look at the tape.”

“We had some opportunities to get in scoring positions, and then I don’t think we had enough third-down and shorts tonight. Certainly there were some opportunities we left out there on the field. We knew coming in that San José State would have a great kicking game, and I thought their punter did an excellent job turning the field over. The field was a little bit long for us, and we couldn’t sustain enough drives.”

“I thought they were able to move the line of scrimmage a little bit. But we’re really down on defensive tackles. I don’t want to take anything away from San Jose, but I mean we were down to two guys down there. That was probably the disappointing thing that we weren’t able to get some more takeaways by forcing more third down and longs.”

On Josh Allen playing:

“It was going to have to be an emergency and we didn’t think where his arm strength was at that he was going to give us the best chance to win.”
